Set up continuous or one-time payments for the due date.

Communication via chat

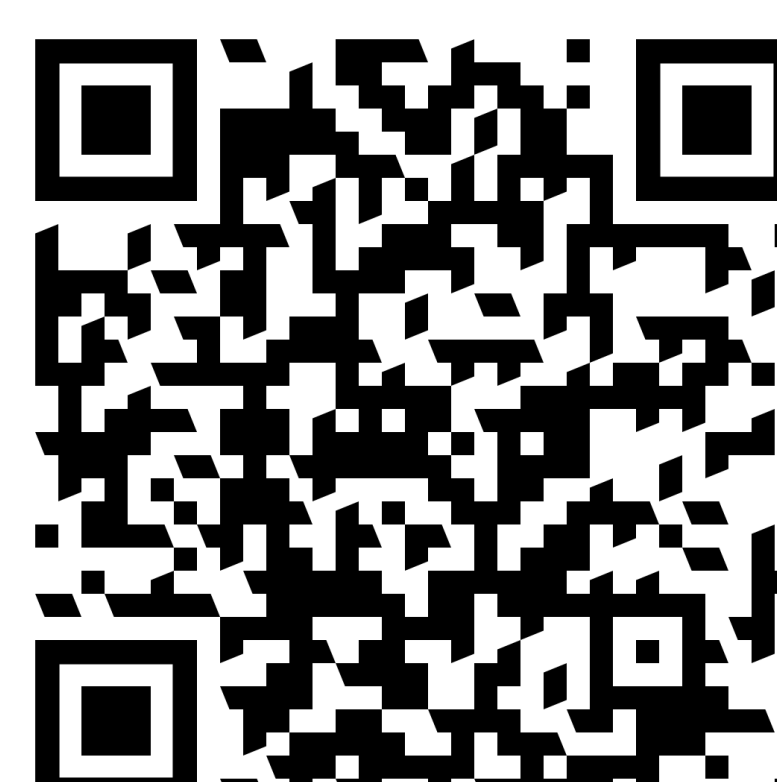

Full chat and history with the owner or manager.

Why should I use the Rentio app?

It would be easy if I had one central place for all important documents for my rental home. I want to report a problem in the home with photos to the right person. It would be helpful if I was reminded of my annual certificates and insurance. If I've created a task or problem for my landlord, the ideal would be to be able to track its status.

All these things are offered by Rentio to tenants. Moreover, you can do all of these from your smartphone. That way you can keep doing your thing mobile.

In addition, you can also pay online, communicate with your landlord via chat, provide updates on tasks to be performed, receive reminders of late payments, ...

Download the **free** app in the Store.

Rentio ready in 4 steps

1

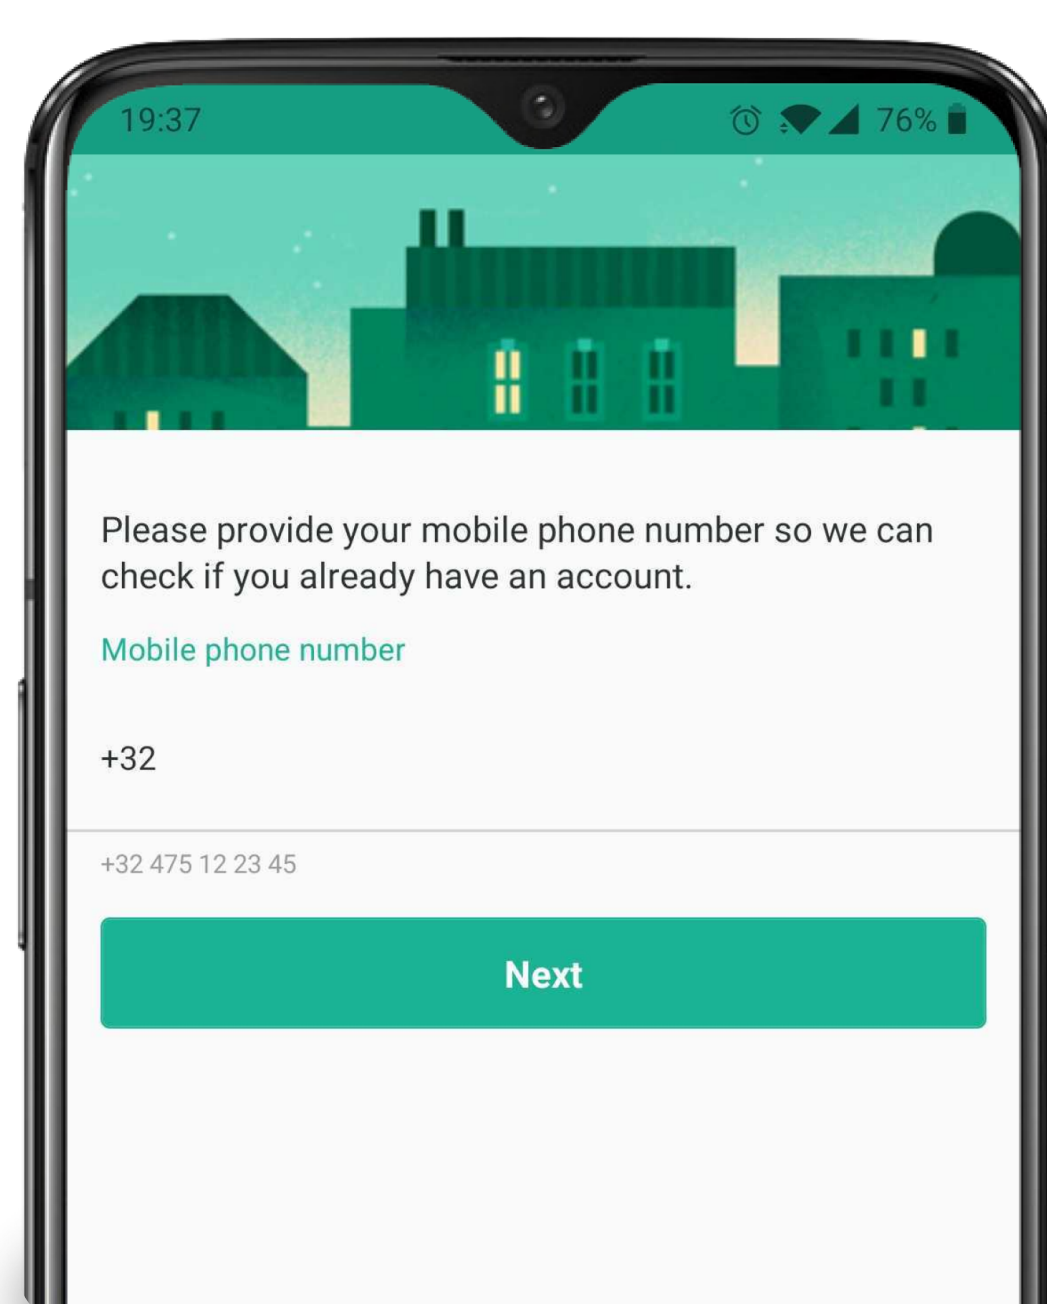

The invitation

You will receive an email from Rentio with the request to start using Rentio. Click the "Download the app" button and you will be taken to the App or Play Store. Then install the Rentio app.

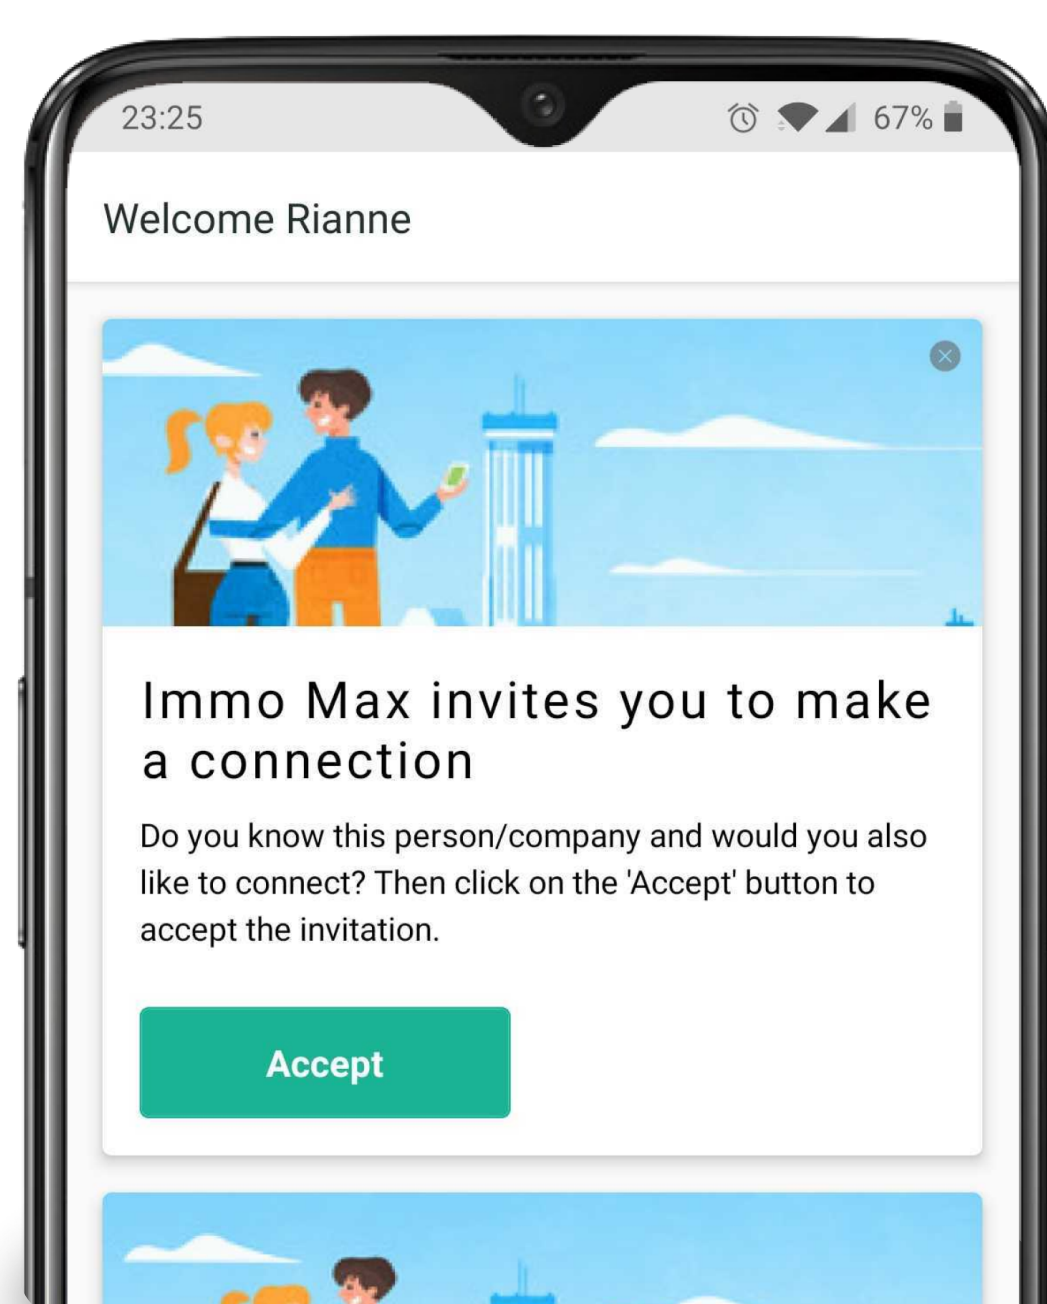

2

Create an account

Enter your mobile number. If we don't know you yet, enter a password of your choice. You will then receive an SMS with a 4-digit code. Enter the code and your name. At the end, just confirm the email address in your mailbox and you're done!

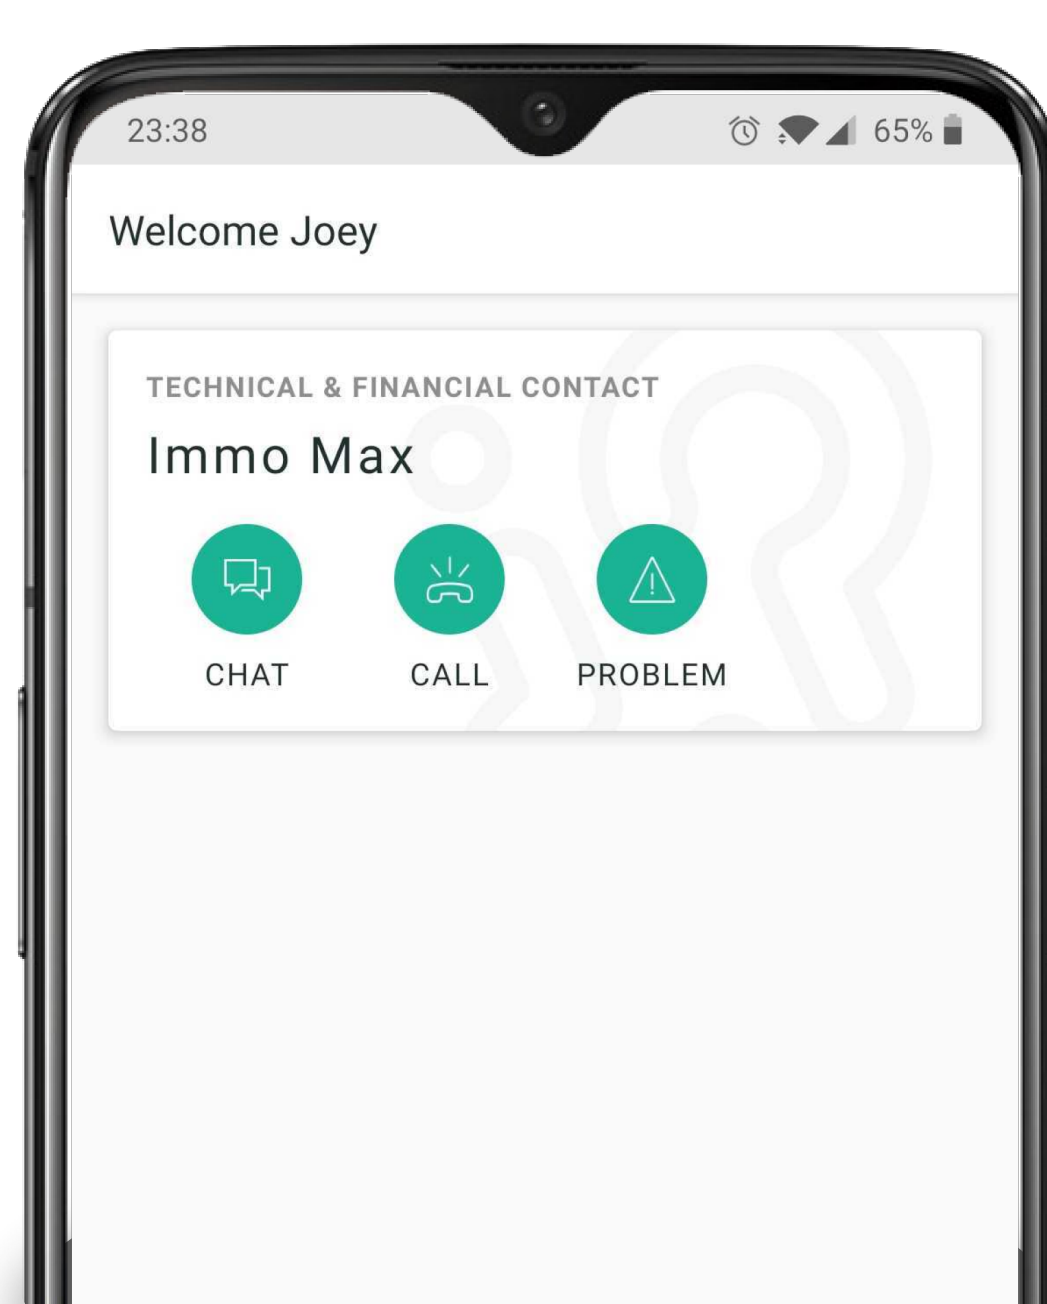

3

Make a connection

On the welcome screen in the app you will receive a card to connect with the broker and / or owner. Just click on "Accept" and you will see your property, contact details, documents,

4

Contact information

By default, your welcome screen contains the contact details of the manager of your rental property. With this you can quickly call, chat or report a problem in the home with photos.
